

Blue Italian Growth
TECHNOLOGY CLUSTER

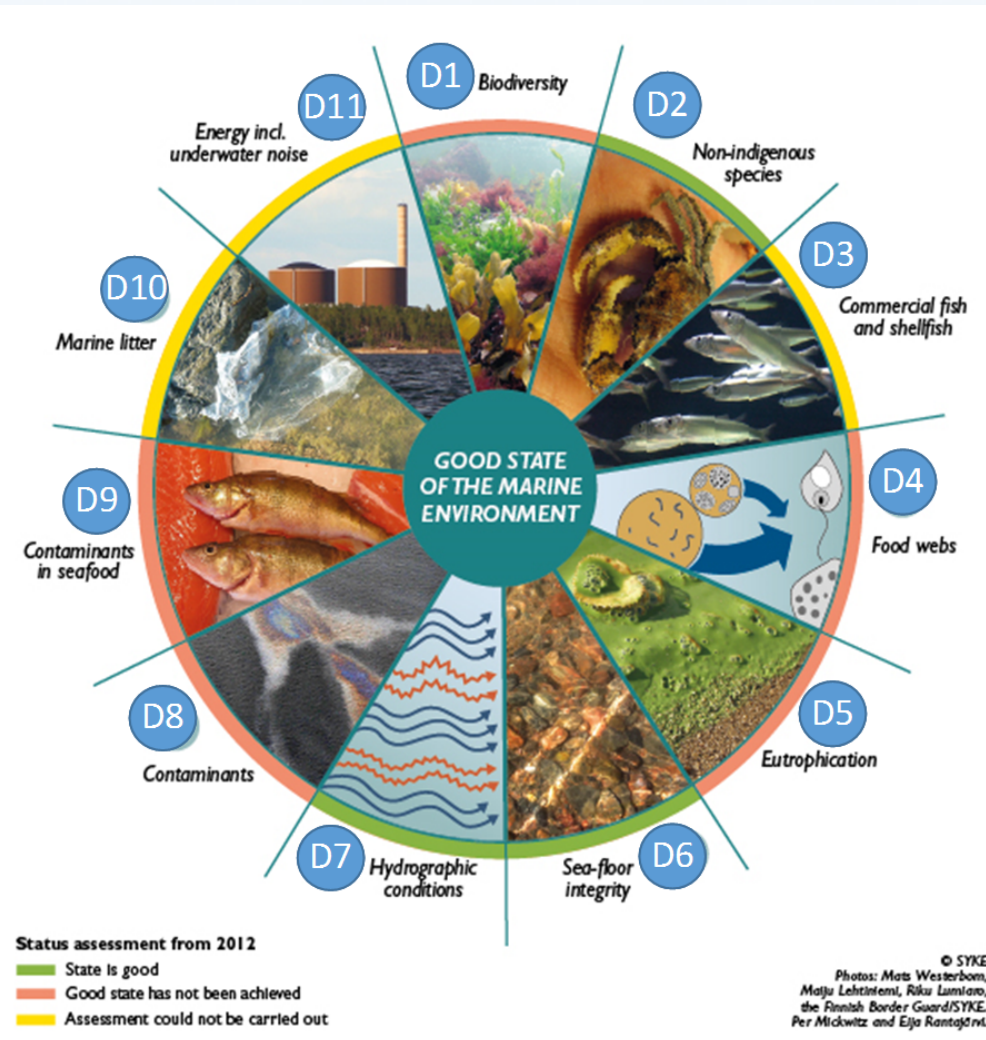

National Technology Cluster *Blue Italian Growth*

Roberto Cimino

Bluemed day, Rome 07/31/2018

Blue Italian Growth: Mission

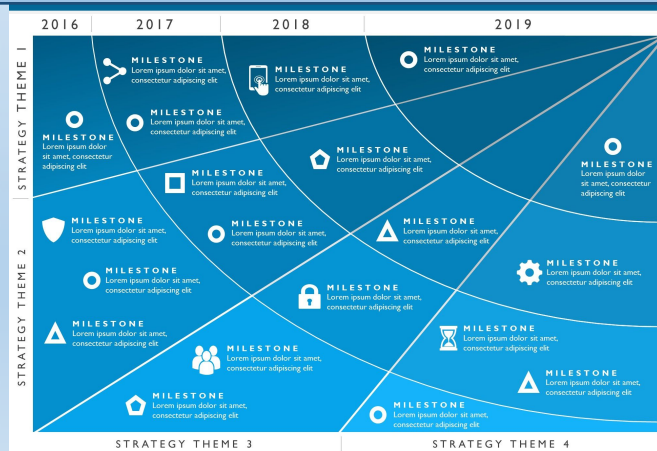

- To create a national community in the context of the blue marine economy;
- To promote an innovation-driven blue growth, by fuelling private-public research partnership;
- To favour the integration of existing infrastructures and skills.

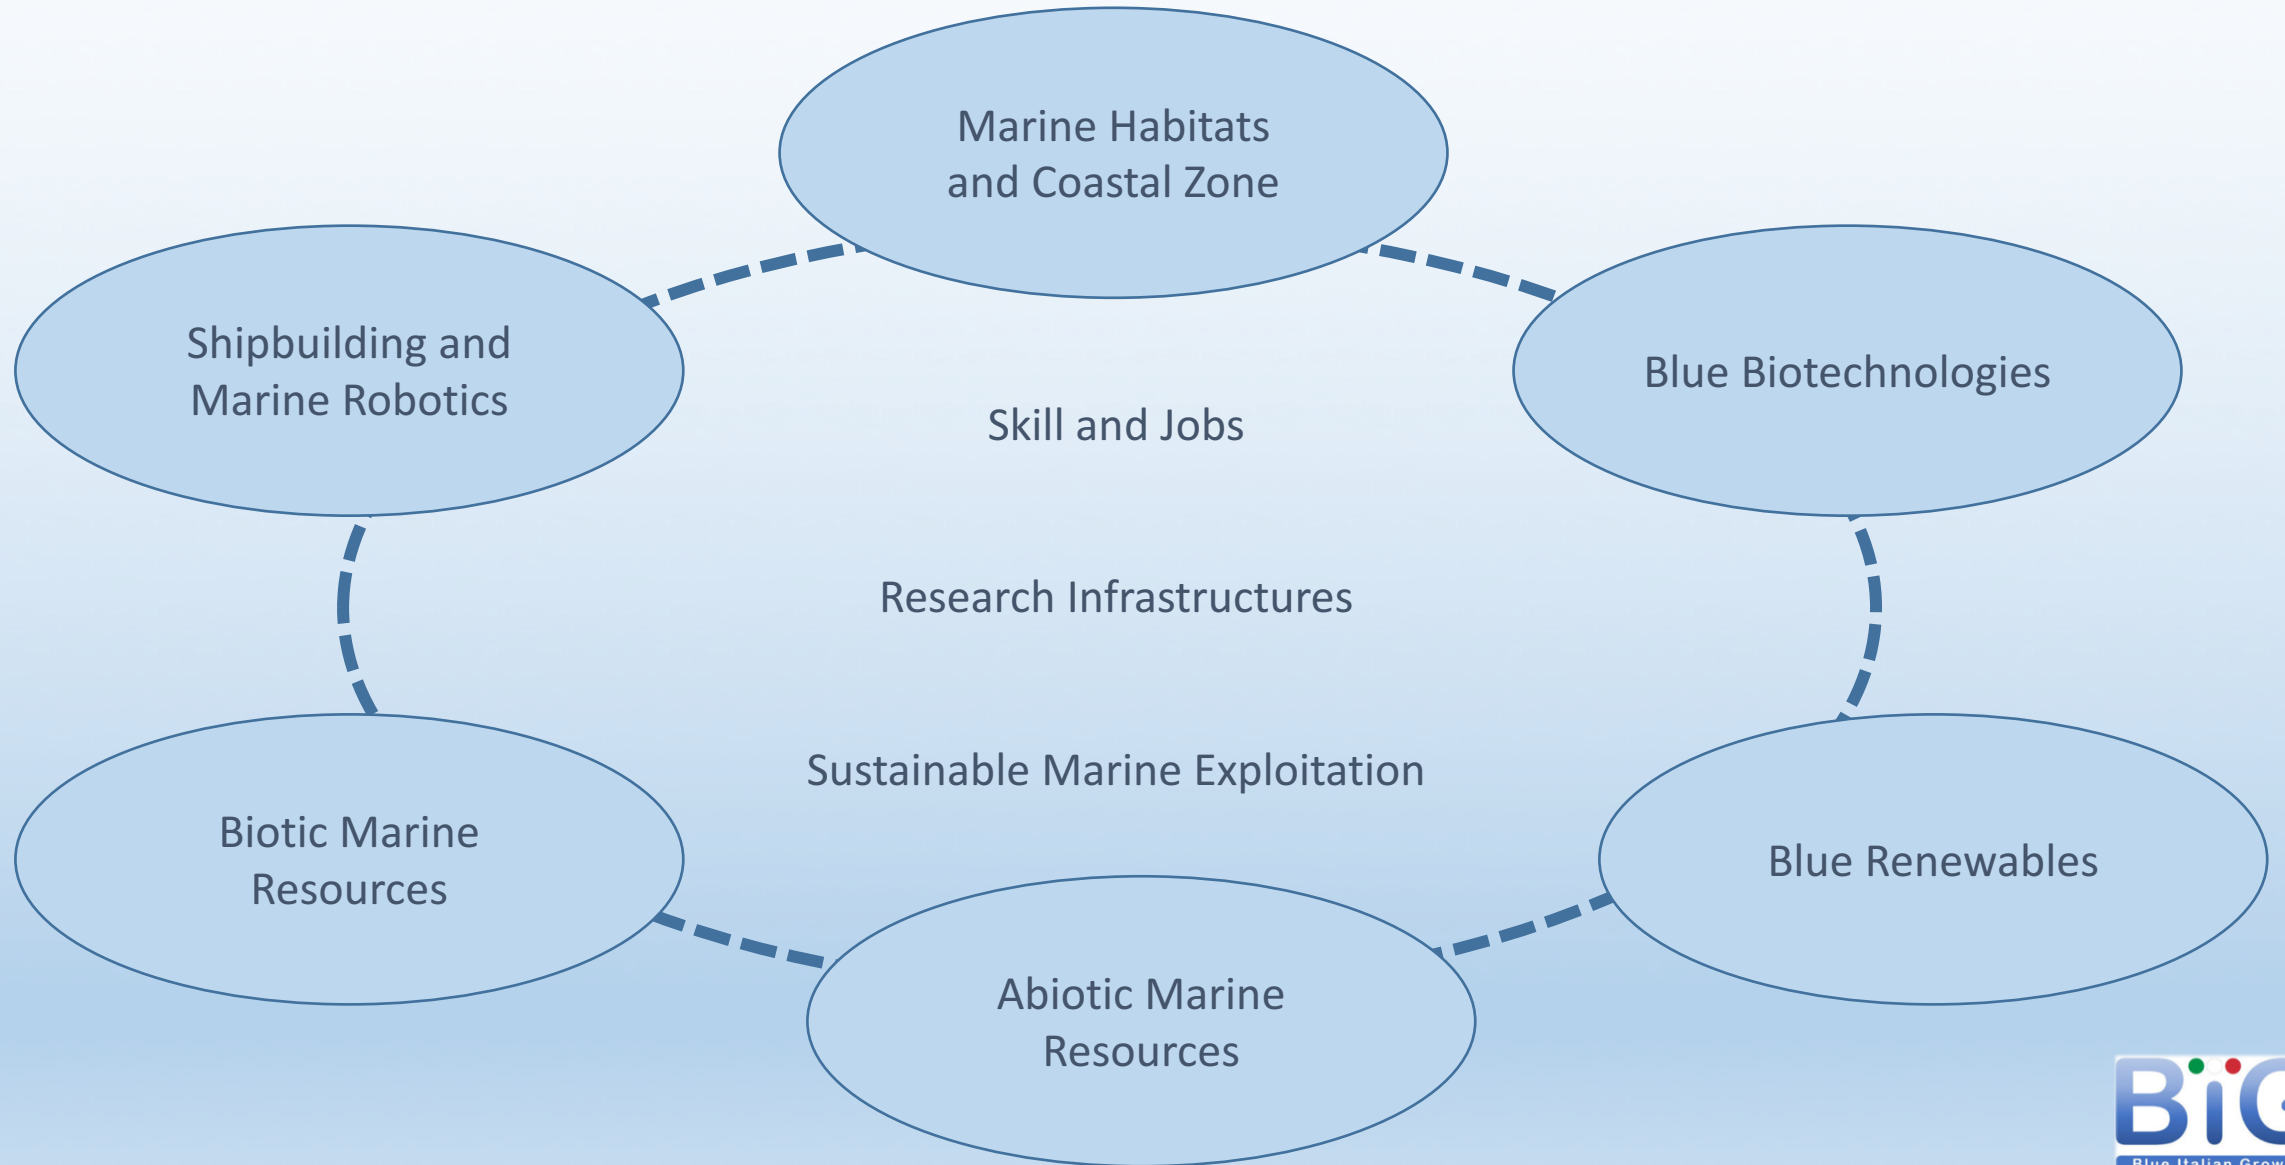

Economic growth based on **innovation while preserving natural capital** (measured by GES, Good Environmental Status)

Blue Italian Growth: goals

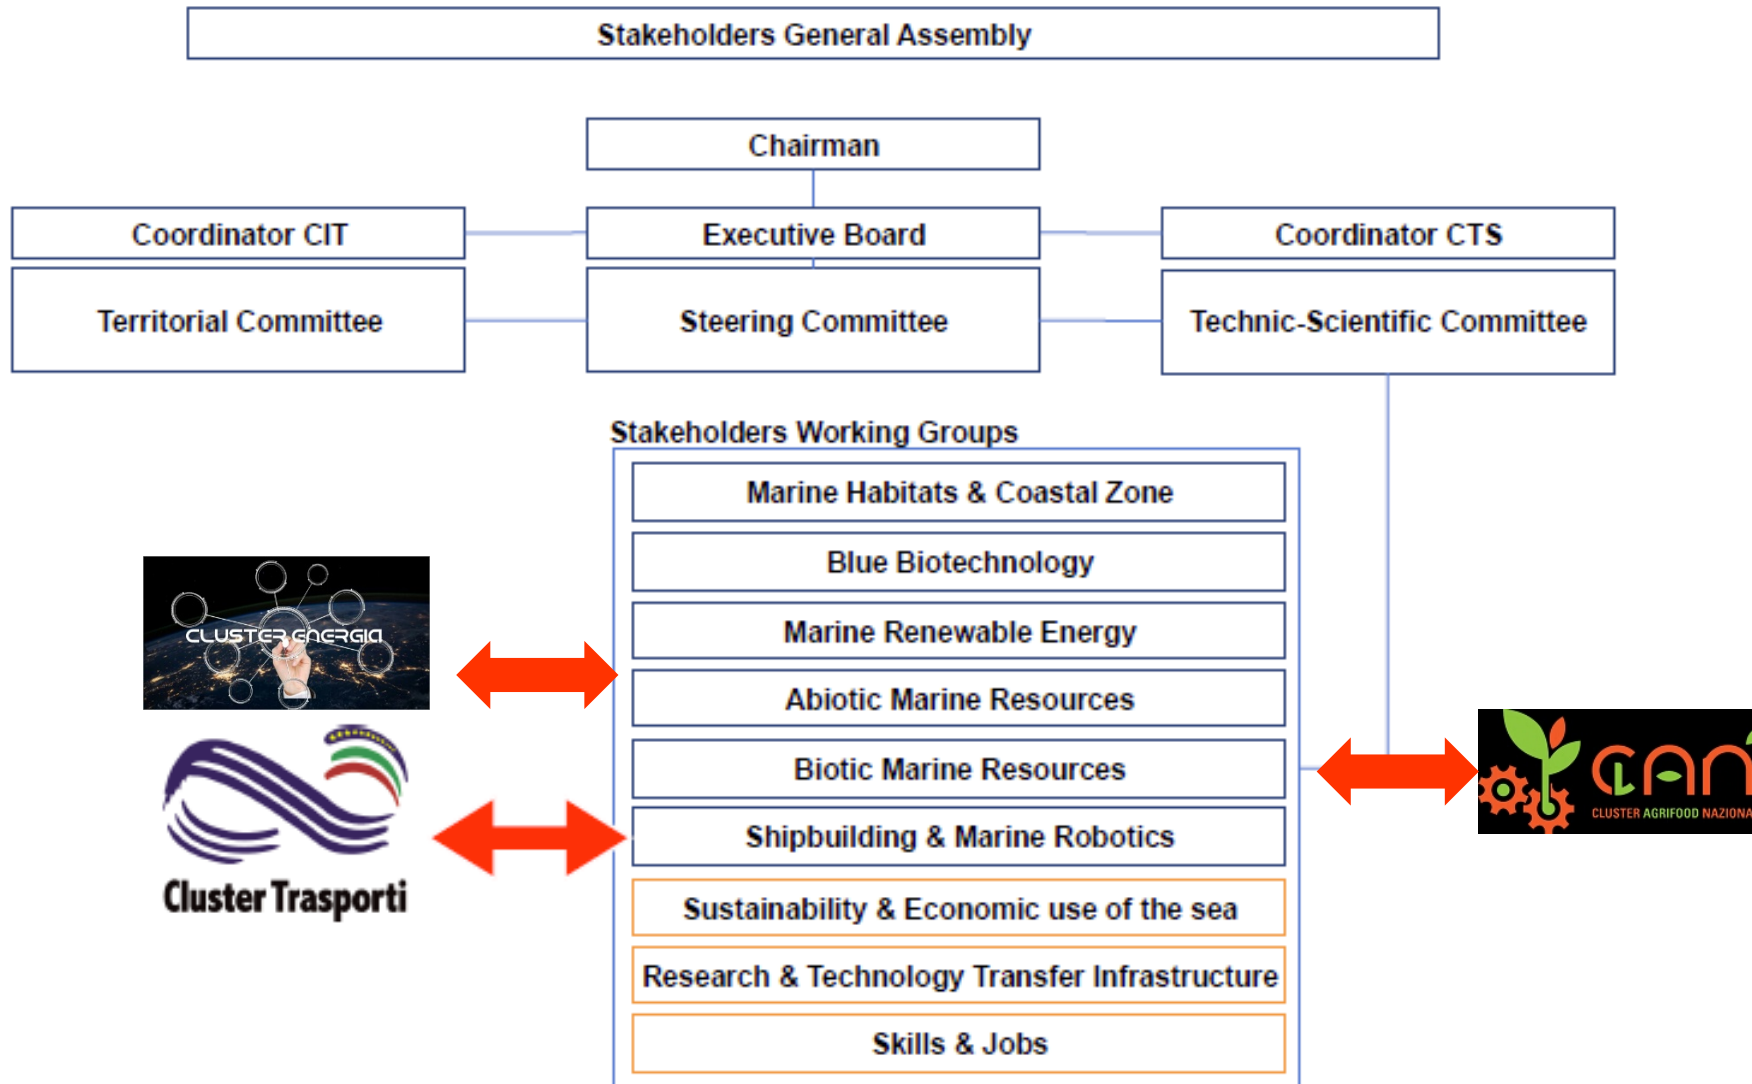

- Preparing technology roadmaps and scenarios ;
- Aligning and integrating regional and national roadmaps with European and Mediterranean ones;
- Supporting informed policies with policy makers;
- Supporting decision-making on the allocation of industrial R&I funds;
- Promoting the integration of research infrastructures;
- Fostering internationalization;

Technology trajectories and cross-cutting areas

Blue Italian Growth: governance

Blue Italian Growth : way forward

Preparing the Strategic Implementation Plan of the Cluster (along the lines of the MIUR Decree 214, March 13, 2018):

three-year plan, identifying BIG activities in order to:

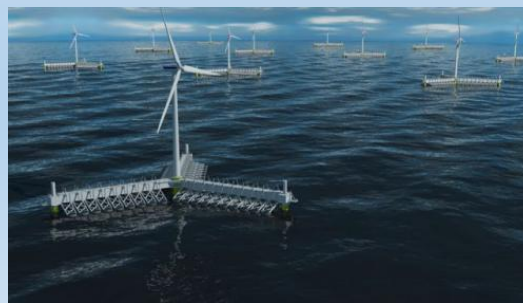

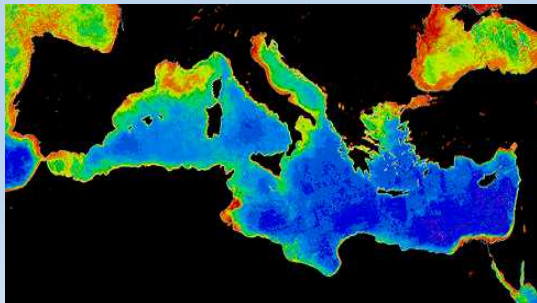

- prepare and update *technology roadmaps* to develop the Blue Economy;
- support the roadmaps implementation, also by activating BIG community and network;

The 3-YP main sections:

1. R&I TECHNOLOGY ROADMAPS

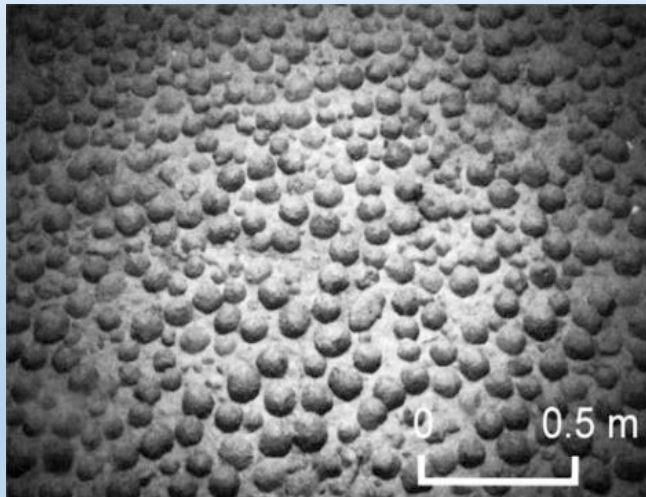

2. SUPPORTING ACTIVITIES TO THE IMPLEMENTATION OF THE ROADMAPS AND TO THE CREATION OF A R&I COMMUNITY

3. SPECIFIC IMPLEMENTATION ACTIONS FOR ITALIAN SOUTHERN REGIONS («MEZZOGIORNO»)

Thank you
