High-Level Research Infrastructures Stakeholders Conference

13th and 14th June 2019

PARIS

Venue to be announced soon

Research infrastructures in the Mediterranean are key to implement at best BLUEMED Strategic Research and Innovation Agenda priorities. This two-day event will be the opportunity for BLUEMED community and Mediterranean research infrastructures experts to elaborate and submit recommendations to policy-makers in order to encourage them to further strengthen marine and research innovation and cooperation in the basin.

More details to follow

Supported by BLUEMED Coordination and Support Action (GA 727453)
funded by the European Commission – DG Research and Innovation.
